The Time for Transit is Long Past-Due

ICAT members are passionately committed to transit as part of a **balanced transportation system** that will improve **quality of life** for all Hoosiers.

Fulfilling this vision is going to require **hard work and cooperation**, as transit is a community issue that affects us all.

Regardless of your economic situation, urban or rural setting, or concern for **"going green" or "making green"**, there are many reasons to care about improved transit and to **support ICAT's work**.

The Benefits of Transit

- Our members represent diverse community interests and we all agree that transit options are **vital to the future** of our community.
- Mass transit makes economic sense. It is a wise investment in our **community's prosperity** – creating jobs and spurring growth and **opportunity**.
- The development of mass transit options in a community positively impacts **energy** consumption, the **environment** and public **health**.
- Every day, mass transit gives members of our community an affordable, convenient and safe transportation **choice**.
- Mass transit gives many people who would otherwise be unable to travel around our city the **access** they need to be independent and self-sufficient.
- Mass transit will provide renewed **freedom** and **mobility** to our community.

Get On Board Today!

As a grassroots organization, we need the support of committed **Hoosiers like you**.

Although there are numerous organizations across the state advocating for transit development, legislators need to hear from **voters, taxpayers & transit riders** – not just interest groups. Transit will continue to be neglected until we demand change.

Visit our website today and click on "Join ICAT" to register your support for more and better transit options in Indiana and to stay apprised of **what you can** do to make our collective vision a reality.
